

Word Processing Completed SPARK Reference

YardFresh Community Market - question-by-question completed guide

REFERENCE EXAMPLE ONLY

Use this document to study the wording, steps, structure and quality of completed work. Do not submit, rename or copy this SPARK project as your own SBA.

Project: YardFresh Community Market

Sector: Business

Questions being answered

Task A - Fillable Form

1. Create a document named Supplier Registration Form_YourFullName.docx. The form must collect the information needed for this project and include clear instructions.

How SPARK completed it

- Start with a clear title and one sentence explaining how the form should be completed.
- Group related fields together and leave enough space for each response.
- Use a consistent font and align labels cleanly.

Completed result

The completed SPARK form is titled Supplier Registration Form and uses a clean two-column label-and-control layout.

2. Use suitable form controls. The SPARK reference uses: Supplier name text box; Parish drop-down list; Product-category drop-down list; Delivery check box.

How SPARK completed it

- Turn on the developer or form-control tools in your word processor.
- Insert the control beside the correct label.
- Set the available choices for drop-down controls.
- Test every control before saving the form.

Completed result

Completed controls: Supplier name text box; Parish drop-down list; Product-category drop-down list; Delivery check box.

Task B - Mail Merge

1. Create a professional main document called Reorder Notice. Use the project data as the mail-merge source.

How SPARK completed it

- Prepare the data source so every merge field has a clear heading.
- Create the main document with a suitable letterhead, date, greeting, body and closing.
- Connect the document to the data source before inserting fields.

Completed result

The completed main document is Reorder Notice and is connected to the project data source.

2. Insert the following merge fields where they make sense: SupplierName, ProductName, QuantityRequired, RequiredDate.

How SPARK completed it

- Insert fields from the Mailings or merge menu rather than typing angle brackets manually.
- Preview several records so long names and large amounts still fit the layout.

- Correct spacing and punctuation around merge fields.

Completed result

Merge fields used: SupplierName, ProductName, QuantityRequired, RequiredDate.

3. Complete the final merged output and include one relevant table, chart or other imported item from the connected SBA work where appropriate.

How SPARK completed it

- Finish the merge to a new document.
- Inspect the first, middle and last merged record.
- Insert the required project table or chart and size it so the page remains readable.
- Save the generic and merged documents separately.

Completed result

The SPARK completed example includes a formatted project table and a merged sample record so students can see the final result, not only the merge-field setup.

Completed fillable form

Document title: Supplier Registration Form

Control	Completed setup
Supplier name text box	Control placed beside a clear label and tested
Parish drop-down list	Control placed beside a clear label and tested
Product-category drop-down list	Control placed beside a clear label and tested
Delivery check box	Control placed beside a clear label and tested

Sample instructions

Complete all required fields. Select one option where a list is provided. Check the consent/confirmation box only after reading the statement. Review the form before saving or printing.

Completed mail merge

Main document: Reorder Notice

Merge fields used

- SupplierName
- ProductName
- QuantityRequired
- RequiredDate

Sample merged output

Dear Parent/Guardian,

This is a sample SPARK merged document for YardFresh Community Market. The individual record has been inserted from the project data source. Please review the information below and follow the organisation's instructions by the stated deadline.

Merge item	Example value
SupplierName	Sample Supplier Name
ProductName	Sample Product Name
QuantityRequired	Sample QuantityRequired
RequiredDate	Sample Required Date

Yours sincerely,

YardFresh Community Market Administration

Final section check

- Every question in the practice brief has a visible completed result.
- The output uses the same project facts as the other sections.
- The work has been tested or checked rather than assumed correct.
- This SPARK example is watermarked and is for study only. Build your own teacher-assigned SBA.
