

Word Processing Completed SPARK Reference

BlueWave Island Tours - question-by-question completed guide

REFERENCE EXAMPLE ONLY

Use this document to study the wording, steps, structure and quality of completed work. Do not submit, rename or copy this SPARK project as your own SBA.

Project: BlueWave Island Tours

Sector: Tourism

Questions being answered

Task A - Fillable Form

1. Create a document named Tour Booking Request Form_YourFullName.docx. The form must collect the information needed for this project and include clear instructions.

How SPARK completed it

- Start with a clear title and one sentence explaining how the form should be completed.
- Group related fields together and leave enough space for each response.
- Use a consistent font and align labels cleanly.

Completed result

The completed SPARK form is titled Tour Booking Request Form and uses a clean two-column label-and-control layout.

2. Use suitable form controls. The SPARK reference uses: Customer name text box; Tour date picker; Package drop-down list; Transport-needed check box.

How SPARK completed it

- Turn on the developer or form-control tools in your word processor.
- Insert the control beside the correct label.
- Set the available choices for drop-down controls.
- Test every control before saving the form.

Completed result

Completed controls: Customer name text box; Tour date picker; Package drop-down list; Transport-needed check box.

Task B - Mail Merge

1. Create a professional main document called Booking Confirmation. Use the project data as the mail-merge source.

How SPARK completed it

- Prepare the data source so every merge field has a clear heading.
- Create the main document with a suitable letterhead, date, greeting, body and closing.
- Connect the document to the data source before inserting fields.

Completed result

The completed main document is Booking Confirmation and is connected to the project data source.

2. Insert the following merge fields where they make sense: CustomerName, PackageName, TourDate, BookingCost, Balance.

How SPARK completed it

- Insert fields from the Mailings or merge menu rather than typing angle brackets manually.
- Preview several records so long names and large amounts still fit the layout.

- Correct spacing and punctuation around merge fields.

Completed result

Merge fields used: CustomerName, PackageName, TourDate, BookingCost, Balance.

3. Complete the final merged output and include one relevant table, chart or other imported item from the connected SBA work where appropriate.

How SPARK completed it

- Finish the merge to a new document.
- Inspect the first, middle and last merged record.
- Insert the required project table or chart and size it so the page remains readable.
- Save the generic and merged documents separately.

Completed result

The SPARK completed example includes a formatted project table and a merged sample record so students can see the final result, not only the merge-field setup.

Completed fillable form

Document title: Tour Booking Request Form

Control	Completed setup
Customer name text box	Control placed beside a clear label and tested
Tour date picker	Control placed beside a clear label and tested
Package drop-down list	Control placed beside a clear label and tested
Transport-needed check box	Control placed beside a clear label and tested

Sample instructions

Complete all required fields. Select one option where a list is provided. Check the consent/confirmation box only after reading the statement. Review the form before saving or printing.

Completed mail merge

Main document: Booking Confirmation

Merge fields used

- CustomerName
- PackageName
- TourDate
- BookingCost
- Balance

Sample merged output

Dear Parent/Guardian,

This is a sample SPARK merged document for BlueWave Island Tours. The individual record has been inserted from the project data source. Please review the information below and follow the organisation's instructions by the stated deadline.

Merge item	Example value
CustomerName	Sample Customer Name
PackageName	Sample Package Name
TourDate	Sample Tour Date
BookingCost	Sample BookingCost
Balance	Sample Balance

Yours sincerely,

BlueWave Island Tours Administration

Final section check

- Every question in the practice brief has a visible completed result.
- The output uses the same project facts as the other sections.
- The work has been tested or checked rather than assumed correct.
- This SPARK example is watermarked and is for study only. Build your own teacher-assigned SBA.
