

Web Page Design Completed SPARK Reference

SPARK Sports Academy - question-by-question completed guide

REFERENCE EXAMPLE ONLY

Use this document to study the wording, steps, structure and quality of completed work. Do not submit, rename or copy this SPARK project as your own SBA.

Project: SPARK Sports Academy

Sector: Sports

Questions being answered

Web Page Design

1. Create one web page for SPARK Sports Academy. The page must be suitable for the intended audience and include a project logo.

How SPARK completed it

- Plan the page before coding or using a visual editor.
- Create a simple header containing the organisation name and a logo.
- Use readable contrast and keep the page width comfortable on phones and computers.

Completed result

The completed SPARK page uses a single responsive page with a simple logo and clear organisation name.

2. Organise the page into these content sections: About the Academy, Programmes and Fees, Training Schedule, Registration, Contact.

How SPARK completed it

- Use one heading for each section.
- Write short paragraphs or lists that answer the visitor's likely questions.
- Keep names, fees, dates and services consistent with the other SBA sections.

Completed result

Completed sections: About the Academy, Programmes and Fees, Training Schedule, Registration, Contact.

3. Add at least two suitable hyperlink types and test them.

How SPARK completed it

- Use descriptive link text instead of Click here.
- Include at least two hyperlink types allowed by your assignment.
- Open every link after saving the final page.

Completed result

The SPARK page includes: Email link to registrations@sparksports.example; Internal link to Programmes and Fees.

4. Add at least one relevant graphic and make sure the page remains readable at different screen sizes.

How SPARK completed it

- Use a relevant image or graphic with sensible dimensions.
- Resize the browser window or use responsive-preview tools.
- Correct horizontal scrolling, clipped text and images that overflow the page.

Completed result

The completed reference uses a project banner graphic, responsive sections and no horizontal scrolling at common mobile widths.

5. Save, test and prepare the final web-page evidence.

How SPARK completed it

- Save the page and supporting files in one organised folder.
- Open the file directly in a browser and test navigation, email links and any file links.
- Take a clear screenshot of the final page if your teacher requires evidence.

Completed result

The SPARK completed page is saved as index.html with all links tested and a matching completed-reference PDF.

Completed one-page web design

The current SPARK practice keeps the assessed web task on one page. The page uses clear internal navigation so the user can move to each section without opening another project page.

Page structure

- About the Academy
- Programmes and Fees
- Training Schedule
- Registration
- Contact

Hyperlinks

- Email link to registrations@sparksports.example
- Internal link to Programmes and Fees

Reference layout

SPARK Sports Academy HOME About the Academy Programmes and Fees Training Schedule Registration Contact
Welcome A short introduction written for the target audience. The full reference page keeps project facts consistent with the database and spreadsheet.
Information section Programme/service/package details, clear rates or rules, and a relevant graphic area.
Contact Email link and internal navigation link tested successfully.

Final checks

- No broken links.
- No horizontal scrolling at normal phone width.
- Readable contrast and text size.
- All organisation details agree with the other SBA files.

Final section check

- Every question in the practice brief has a visible completed result.
- The output uses the same project facts as the other sections.
- The work has been tested or checked rather than assumed correct.
- This SPARK example is watermarked and is for study only. Build your own teacher-assigned SBA.
